

Meta Title

The meta title tag defines the title of a webpage and influences SEO rankings.

Meta Description

The meta description tag provides a brief summary of the webpage for search engines and users.

Meta Keywords

The meta keywords tag was used to specify relevant keywords for search engines, though it is now deprecated.

Meta Robots

The meta robots tag controls search engine crawling and indexing of a webpage.

Meta Viewport

The meta viewport tag defines how a webpage is displayed on mobile devices.

Canonical Tag

The canonical tag helps prevent duplicate content issues by specifying the preferred version of a URL.

Open Graph

Open Graph meta tags enhance how webpages appear when shared on social media platforms like Facebook.

Twitter Card

Twitter Card meta tags improve how links from a website are displayed on Twitter.

Meta Refresh

The meta refresh tag automatically redirects or reloads a webpage after a specified time interval.

Meta Charset

The meta charset tag defines the character encoding for a webpage, ensuring correct text display.
